

PERSONAL INFORMATION

Susan van den Hof

 RIVM, Anthonie van Leeuwenhoeklaan 9, 3721 MA Bilthoven (Netherlands)

WORK EXPERIENCE

01/06/2018–Present

Head of the Centre for Infectious Disease Epidemiology and Surveillance

National Institute of Public Health and the Environment (RIVM), Bilthoven (Netherlands)

- Overall management of the Centre for Infectious Disease Epidemiology and Surveillance, with 95 fte researchers and data managers, divided over seven departments
- State Epidemiologist
- National Coordinator for ECDC
- Co-coordinator of WHO Collaboration Centre for AMR surveillance and epidemiology

The Centre analyses and monitors the occurrence and trends in infectious diseases in the Netherlands through surveillance, and carries out studies on the effectiveness and cost-effectiveness of measures to control infectious diseases: vaccine preventable diseases, sexually transmitted diseases, nosocomial infections, antimicrobial resistance, respiratory infections, gastroenteritis and zoonoses. These activities are supported by high-level methodological expertise and experience in surveillance, biostatistics and mathematical modelling.
